API Integration Testing Document

This document serves as a comprehensive guide to the API integration in E-SCHOOL platform solution for Addis Ababa Schools and Technical Vocational Education Training Colleges designed and developed by TRIA and Resbee. The purpose of this document is to ensure that various software applications' APIs interact correctly with each other.

Table of Contents

1. Required Information / Documentations

1.1. Name of the Assets to be Audited

1.2. Updated API Documentation

ekhoolAPIv3

a. GET

- GET public coupons list

    o URL: https://bole-school.lms.uat.ethiocheno.com//api/v3/public_coupons

    o Example

    - Request

    curl --location 'https://bole-school.lms.uat.ethiocheno.com//api/v3/public_coupons' \
    --data "

    - Response

    ```
    {
      "error": false,
      "message": "Coupons found",
      "coupons": [

<p class=\\\"headings-altr\\\"><strong>General
Instructions:<\\/strong><\\/p>\\r\\n   \\r\\n   The
countdown timer at the top left corner of your screen will display the time
remaining for you to complete the exam. When the clock runs out the
exam ends by default, you don\\u2019t need to end or submit your
exam.<\\/li>\\r\\n   The question palette at the left of screen
allows you to filter out four categories of questions through filter
operation, a) Show all question, b) Answered question, c) Unanswered
questions, and d) Bookmarked questions<\\/li>\\r\\n   Click on
the question number on the question palette at the top of your screen to go
to that numbered question directly.<\\/li>\\r\\n   Click on Next
button to save the answer of current question and to go to the next question
in sequence.<\\/li>\\r\\n   Click on Bookmarked button to save
the answer of current question, mark it for review, and to go to the next
question in sequence. The Bookmark status simply acts as a reminder that
you have set to look at the question again.<\\/li>\\r\\n   If you
want to categorically view various type of questions like aptitude, fill in
the blanks or subject type, you can select the option shown in the right top
of the page. (If it is visible)<\\/li>\\r\\n   Once you complete the
exam, you click on Submit button. After clicking this, you see an option to
review the questions again. After reviewing it, you can click the Submit
button<\\/li>\\r\\n   <\\/ol>   \\r\\n   <\\/div>\"}",

A main idea is more than a piece of content that you found while you were researching, it is often a point that you want to make about the information that you are discussing. Consider how you are going to discuss that idea (what is the paragraph plan). For example, are you: listing a number of ideas, comparing and contrasting the views of different authors, describing problems and solutions, or describing causes and effects?</p>\n<p>List paragraphs should include words like: similarly, additionally, next, another example, as well, furthermore, another, firstly, secondly, thirdly, finally, and so on. </p>\n<p>Cause and effect paragraphs should include words like: consequently, as a result, therefore, outcomes included, results indicated, and so on. </p>\n<p>Compare and contrast paragraphs should include words like: on the other hand, by contrast, similarly, in a similar way, conversely, alternatively, and

so on.</p>\n<p> Problem solution paragraphs should include words like: outcomes included, identified problems included, other concerns were overcome by, and so on. test in </p>\n<p></p>",

        "pb_title": "An updated modern course  The course was updated on November",
        "pb_description": "<p><strong>An updated modern course</strong></p>\r\n<p>The course was updated on<strong> November 4th, 2022, </strong>entirely<strong>. </strong>The new content is a significant improvement to the old course, with a better course structure, more real-world apps, and using the latest version of Python and other recent programming tools. The course assumes you have never programmed before and teaches Python from zero.</p>\r\n<p><strong>Multimodal learning</strong></p>\r\n<p>This is the only course that follows a multimodal learning approach that offers students both a video course and an environment that simulates real-world programming activities similar to a real bootcamp. Students learn Python by building programs from scratch, adding new features to existing programs, improving existing features, fixing bugs, engaging in code
```

experiments, learning programming tools that every programmer should know, deploying apps in the cloud, and engaging with other fellow students. Your skill set will build up progressively and strongly while you also build your programming portfolio to list and showcase all your Python projects.</p>\r\n<p>A course for absolute beginners</p>\r\n<p>This is the right course for you if you have never programmed before. This course covers every Python concept using real-world examples so you understand both Python language and the logic behind programming. From the very basics to the very advanced features such as threading, everything is introduced in the context of a real-world app that you will build. That will make abstract programming concepts easy to understand.</p>\r\n<p>Instructor-led projects and independent student projects</p>\r\n<p>Every day you will be building programs as your skills grow. Every day you will create programs led by your instructor, followed by projects you will code on your own to bulletproof your skills. Finally, you will be able to compare your code with that given by the instructor at the end of the day to fill in any gaps.</p>\r\n<p>Changing careers or building apps</p>\r\n<p>Whether you want to change your career to a Python programmer or turn an idea into a real app, this course has your back. You can take the entire course to become a programmer or pick the projects that interest you if you only want to build a particular app. You will also learn Git and GitHub so you can create a portfolio of 18 Python apps on your GitHub account to show to potential employers or friends.</p>\r\n<p>From data science to web development</p>\r\n<p>The course covers a wide range of applications, from rich data science web apps that analyze and visualize large amounts of data to building web applications using Python web frameworks such as Streamlit, Flask, and Django. Other aspects of Python, such as automating tedious tasks, are also covered, ranging from generating PDF invoices to automating emails. This course has it all.</p>\r\n<p style=\"box-sizing: border-box; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: \" udemy=\"\"\" sans\",=\"\" \"sf=\"\"\" pro=\"\"\" text\",=\"\"\" -apple-system,=\"\"\"

    "id": "5",
    "pb_title": "Sit Less Move More - Office Desk Exercise To Improve Posture",
    "pb_description": "<p>An updated modern course</p>\r\n<p>The course was updated on November 4th, 2022, entirely. The new content is a significant improvement to the old course, with a better course structure, more real-world apps, and using the latest version of Python and other recent programming tools. The course assumes you have never programmed before and teaches Python from zero.</p>\r\n<p>Multimodal learning</p>\r\n<p>This is the only course that follows a multimodal learning approach that offers students both a video course and an environment that simulates real-world programming activities similar to a real bootcamp. Students learn Python by building programs from scratch, adding new features to existing programs, improving existing features, fixing bugs, engaging in code experiments, learning programming tools that every programmer should know, deploying apps in the cloud, and engaging with other fellow students. Your skill set will build up progressively and strongly while you also build your programming portfolio to list and showcase all your Python projects.</p>\r\n<p>A course for absolute beginners</p>\r\n<p>This is the right course for you if you have never programmed before. This course covers every Python concept using real-world examples so you understand both Python language and the logic behind programming. From the very basics to the very advanced features such as threading, everything is introduced in the context of a real-world app that you will build. That will make abstract programming concepts easy to understand.</p>\r\n<p>Instructor-led projects and independent student projects</p>\r\n<p>Every day you will be building programs as your skills grow. Every day you will create programs led by your instructor, followed by projects you will code on your own to bulletproof your skills. Finally, you will be able to compare your code with

that given by the instructor at the end of the day to fill in any gaps.</p>\r\n<p>Changing careers or building apps</p>\r\n<p>Whether you want to change your career to a Python programmer or turn an idea into a real app, this course has your back. You can take the entire course to become a programmer or pick the projects that interest you if you only want to build a particular app. You will also learn Git and GitHub so you can create a portfolio of 18 Python apps on your GitHub account to show to potential employers or friends.</p>\r\n<p>From data science to web development</p>\r\n<p>The course covers a wide range of applications, from rich data science web apps that analyze and visualize large amounts of data to building web applications using Python web frameworks such as Streamlit, Flask, and Django. Other aspects of Python, such as automating tedious tasks, are also covered, ranging from generating PDF invoices to automating emails. This course has it all.</p>\r\n<p>Learn on your schedule</p>\r\n<p>The curriculum encourages you to work on the course by studying 2-5 hours every day, but you can also do multiple-day modules during the weekend or whenever it suits you. In addition, you will have unlimited access to all the videos and practice activities. If you take this course seriously, this is better than a 10,000-dollar boot camp.</p>\r\n<p>Student Testimonies</p>\r\n<p>\"This new material is great. I am learning the material much better than in the old format. These features help: repetition of the concept from many approaches helps me learn the concept well; the program development approach in teaching the codes (functions, variable assignments) makes learning more natural and therefore more efficient; the quizzes and coding exercises are well thought out, they reinforce the lessons. Congratulations! I am glad I remained with your course. By the way, I finished an earlier course of yours and got my first certificate in Python. But this course is way way more effective.\"</p>\r\n<p></p>\r\n<p>\"I'm giving this course five stars today because the November 2022 update, well complete overhaul, is massive and really brings the course to a new level. I completed about 70% of the old course, so I can say, the new update is

great.</p>\r\n<p>The self-study tasks are a nice addition and the projects are like what we'd be doing in the wild. So, we learn a bit and then do it ourselves (no peeking), which takes the course beyond a series of code-alongs.</p>\r\n<p>It's nice to have GIT integration now, which is something I've never gone into that much.</p>\r\n<p>The course is angled towards CLI and web apps, along with some data analysis, so don't expect a course on neural networks and machine learning, even though there is a section about computer vision and motion tracking.\"<strong style=\"color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol"; font-size: 1em; background-color: var(--card-bg-color); box-sizing: border-box; margin: 0px; padding: 0px;\">An updated modern course</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\">The course was updated on<strong style=\"box-sizing: border-box; margin: 0px; padding: 0px;\"> November 4th, 2022, entirely<strong style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">. concepts easy to understand.</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><strong style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">Instructor-led projects and independent student projects</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\">Every day you will be building programs as your skills grow. Every day you will create programs led by your instructor, followed by projects you will code on your own to bulletproof your skills. Finally, you will be able to compare your code with that given by the instructor at the end of the day to fill in any gaps.</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><strong style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">Changing careers or building apps</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\">Whether you want to change your career to a Python programmer or turn an idea into a real app, this course has your back. You can take the entire course to become a programmer or pick the projects that interest you if you only want to build a particular app. You will also learn Git and GitHub so you

can create a portfolio of 18 Python apps on your GitHub account to show to potential employers or friends.</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><strong style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">From data science to web development</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\">The course covers a wide range of applications, from rich data science web apps that analyze and visualize large amounts of data to building web applications using Python web frameworks such as Streamlit, Flask, and Django. Other aspects of Python, such as automating tedious tasks, are also covered, ranging from generating PDF invoices to automating emails. This course has it all.</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><strong style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">Learn on your schedule</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\">The curriculum encourages you to work on the course by studying 2-5 hours every day, but you can also do multiple-day modules during the weekend or whenever it suits you. In

addition, you will have unlimited access to all the videos and practice activities. If you take this course seriously, this is better than a 10,000-dollar boot camp.</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><strong style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">Student Testimonies</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><em style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">\"This new material is great. I am learning the material much better than in the old format. These features help: repetition of the concept from many approaches helps me learn the concept well; the program development approach in teaching the codes (functions, variable assignments) makes learning more natural and therefore more efficient; the quizzes and coding exercises are well thought out, they reinforce the lessons. Congratulations! I am glad I remained with your course. By the way, I finished an earlier course of yours and got my first certificate in Python. But this course is way way more effective.\"</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><br style=\"box-sizing: border-box; margin: 0px; padding: 0px;\"></p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto,

"segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\">\"<em style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">I'm giving this course five stars today because the November 2022 update, well complete overhaul, is massive and really brings the course to a new level. I completed about 70% of the old course, so I can say, the new update is great.</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><em style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">The self-study tasks are a nice addition and the projects are like what we'd be doing in the wild. So, we learn a bit and then do it ourselves (no peeking), which takes the course beyond a series of code-alongs.</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><em style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">It's nice to have GIT integration now, which is something I've never gone into that much.</p><p style=\"box-sizing: border-box; margin-top: 0.8rem; margin-bottom: 0px; max-width: 118.4rem; color: rgb(28, 29, 31); font-family: "udemy sans", "sf pro text", -apple-system, BlinkMacSystemFont, Roboto, "segoe ui", Helvetica, Arial, sans-serif, "apple color emoji", "segoe ui emoji", "segoe ui symbol";\"><em style=\"box-sizing: border-box; margin: 0px; padding: 0px;\">The course is angled towards CLI and web apps, along with some data analysis, so don't expect a course on neural networks and machine learning, even though there is a section about computer vision and motion tracking.\"</p>",

var(--card-bg-color);\">and a working thesis statement for your paper. What is the most important idea that you are trying to convey to your reader? The information in each paragraph must be related to that idea. In other words, your paragraphs should remind your reader that there is a recurrent relationship between your thesis and the information in each paragraph. A working thesis functions like a seed from which your paper, and your ideas, will grow. The whole process is an organic one—a natural progression from a seed to a full-blown paper where there are direct, familial relationships between all of the ideas in the paper.</p><p>The decision about what to put into your paragraphs begins with the germination of a seed of ideas; this "germination process" is better known as <a title=\"Brainstorming\" href=\"https://writingcenter.unc.edu/tips-and-tools/brainstorming/\" style=\"font-family: Roboto, Helvetica, Arial, sans-serfif; font-size: 1em; box-sizing: border-box; background-image: initial; background-position: initial; background-size: initial; background-repeat:

initial; background-attachment: initial; background-origin: initial; background-clip: initial; color: rgb(0, 127, 174); text-decoration-line: underline; transition: all 0.3s ease-out 0s; text-shadow: none !important;\">brainstorming. There are many techniques for brainstorming; whichever one you choose, this stage of paragraph development cannot be skipped. Building paragraphs can be like building a skyscraper: there must be a well-planned foundation that supports what you are building. Any cracks, inconsistencies, or other corruptions of the foundation can cause your whole paper to crumble.</p>",

  - Response

```
{
  "error": false,
  "message": "Exam found",
  "exam_rules": "The live exam notification will be sent before one week
of the exam date. The exam will be conducted for every lesson of all the
subjects. The one who has subscribed the lesson can attend the live exam.
The participants can join the live exam before 5 minutes of the exam
timing. When the exam starts, the participants can view the questions one
by one and every question have different response times which will be
notified in the top center of the screen. Once you select an answer, you
have to wait for the next question. At the top corner of the screen, you can
view the total questions available and those attended. When you answer a
question, you will be notified whether your answers are correct or not.
Moreover, you get a score of one for the correct answer and the points will
be calculated based on the time took for answering a question. This
calculation is based on dividing 60 sec with the answering time. For
example, if you answer the question within a sec, you will get a point of
60. Once the exam is completed, the winner will be announced
immediately. The winner selection is based on live exam score, Study
progress score (In the MAAZTER learning app, see Report□Overall
report) and the points (only if multiple participants score the winning
marks)",
  "how_winer_select": "After the completion of the exam, the winner will
be selected based on the total score and the total points. The total score will
be computed based on the live exam score and the study progress score (In
```

the MAAZTER learning app, see Report☐Overall report) average of both the scores will be considered for the selection and the winner will be announced. If multiple participants get the winning score, the winner will be selected based on the total points earned by the selected participants.",

  "scholarship_exam_series": "MAAZTER Scholarship exam series comprises of around 200 live exams for both tamil and English medium students. For every subject, there will be one live exam per lesson, covering the syllabi of that corresponding lesson. For every Sunday, the live exam will be conducted for the subject & the lesson preannounced. The one who has subscribed the corresponding lesson can attend the exam. Winner will be selected at the end of every exam, and a cash worth of Rs, 500/- will be awarded. Resbee Info Tech (P) Ltd has allocated a fund amount of Rs, 1,00,000/- , which will be distributed through 200 live exams, for this scholarship exam series",

"pb_description": "<p>BECOME MILLIONAIRE BY
STARTING ONLINE ACADEMY WITH WORLD-CLASS COACHING
LMS SOFTWARE</p>\r\n
Coaching
LMS
\r\n<p>For the learning exigency of your
institution, we, e-khool LMS the best LMS software offer you the platform
to create the astonishing online coaching academy and make your e-
learners productive and effective. We provide an online Learning platform
for coaching academies to undergo live classes and upload a prep test
engine prepared by your online academy. With the help of our e-khool
LMS software, you can market your online coaching academy all over the
world. AIRA, an AI learning assistance used in our e-khool LMS enhance
all facet of learning circumstance and promote improved performance. By
partnering with e-khool LMS, you get a supportive technology leader
along with AI to record your track and back it up. We are also ready to
partner with an online coaching academy to deliver your best to e-learners.
We are the best LMS for coaching academies proven as the cost-effective
and profitable platform to promote your coaching academy in our e-khool
LMS software.</p>\r\n<p>Looking for a complete solution for
your coaching academy?</p>\r\n<p>Our e-khool LMS platform
supports a coaching application that enhances the personalized delivery of
your training content. e-khool LMS helps the coaching academies to
provide a cloud-based online learning platform that delivers interactive
multimedia content and online courses to the learners. With the help of our

e-khool LMS software, online coaching academy can offer 100% attention to trainers with less distortion. e-khool LMS software provides a Coaching learning management system, through which online academies can help e-learners to build their self-confidence by discovering new innovative ideas and skills. Our e-khool LMS software acts as a platform to ensure that training experts in your online academy will make e-learners focus on their goals and motivate them to reach their goals.</p>\r\n<p>Our e-khool LMS delivers a unified online coaching academy by which learners can make their learning program easy. To achieve greater effectiveness we, the best LMS for coaching academies help online academies to gain more learners. Our e-khool LMS software provides an online coaching platform that helps the learners of your online academy to become masters of their respective disciplines. We ensure that our e-khool, the best LMS software for coaching academies will high in quality and standard.</p>\r\n<p>How e-khool helpful online coaching?</p>\r\n<p>Our e-khool LMS software helps the training professions of your coaching academy to deliver the course material and online classes. Also, e-khool coaching learning management system helps the online academies to deliver their digital assets securely. To reinforce learning, our e-khool LMS software provide immediate feedback for the assessments conducted by the online academy. With our coaching learning management system, coaching academies can facilitate practical skills to learners through videos, simulations, scenarios, and assessments.</p>\r\n<p>Professional training and coaching</p>\r\n<p>The skillset needed for an aspirant is time management, interactive communication, writing essays, procrastination, managing exam anxiety, preparing for exams, self-motivation. In our e-khool LMS, professional training and coaching centers can create their own online coaching append deliver their valuable learning materials to the aspirants.</p>\r\n<p>IIT JEE Coaching</p>\r\n<p>JEE (Joint Entrance Exam) is conducted as an entrance exam for Top Engineering Colleges like IIT (Indian Institute of Technology). This exam is conducted to judge the aspirants' analytical ability. "pb_description": "<p>"Big data\" analysis is a hot and highly valuable skill – and this course will teach you the hottest technology in big data: Apache Spark and specifically PySpark. Employers including Amazon, EBay, NASA JPL, and Yahoo all use Spark to quickly extract meaning from massive data sets across a fault-tolerant Hadoop cluster. You'll learn those same techniques, using your own Windows system right at home. It's easier than you might think.</p>\r\n<p>Learn and master the art of framing data analysis problems as Spark problems through over 20 hands-on examples, and then scale them up to run on cloud computing services in this course. You'll be learning from an ex-engineer and senior manager from Amazon and IMDb.</p><p>This course uses the familiar Python programming language; if you'd rather use Scala to get the best performance out of Spark, see my \"Apache Spark with Scala - Hands On with Big Data\" course instead.
</p>\r\n<p>We'll have some fun along the way. You'll get warmed up with some simple examples of using Spark to analyze movie ratings data and text in a book. Once you've got the basics under your belt, we'll move to some more complex and interesting tasks. We'll use a million movie ratings to find movies that are similar to each other, and you might even discover some new movies you might like in the process! We'll analyze a social graph of superheroes, and learn who the most "popular\" superhero is – and develop a system to find "degrees of separation\"

between superheroes. Are all Marvel superheroes within a few degrees of being connected to The Incredible Hulk? You'll find the answer.</p>\r\n<p>This course is very hands-on; you'll spend most of your time following along with the instructor as we write, analyze, and run real code together – both on your own system, and in the cloud using Amazon's Elastic MapReduce service. 7 hours of video content is included, with over 20 real examples of increasing complexity you can build, run and study yourself. Move through them at your own pace, on your own schedule. The course wraps up with an overview of other Spark-based technologies, including Spark SQL, Spark Streaming, and GraphX.</p><p>
</p>",

"pb_description": "<h2>Computer in Words</h2>\r\n<p>In the 21st century, it is impossible to imagine a life without a computer and internet connection. The invention of computers has brought in a lot of changes in people's lives and have helped in fulfilling people's dreams. A computer is used in various organisations, schools, institutions, offices, etc. It can be used to store important information with high protection, and can also be used to send and receive messages, make calculations, develop software, send and receive emails, etc. The major parts of a computer are the mouse, keyboard, monitor, and CPU but these gadgets have been improvised with a lot of modifications.</p>\r\n<p>Nowadays, we have been very dependent on technology, therefore it is difficult to imagine our lives without a computer. To learn any professional course, you must be well versed in computer usage. Whether a school student or an employee, you must at least know the basics of computers. Along with the increasing usage of computers, they have been updated in many ways like making it lighter to carry in a bag, making processors faster, etc. With the increasing usage and demands of people, computers have been developed and have made life easier. Starting from simple calculations to weather forecasting, computers have become a part of our lives.</p>",

"pb_description": "<h2>What is Lorem
Ipsum?</h2>\r\n<p>Lorem Ipsum is simply dummy
text of the printing and\r\n typesetting industry. Lorem Ipsum has been the
industry's standard \r\ndummy text ever since the 1500s, when an
unknown printer took a galley \r\nof type and scrambled it to make a type
specimen book. It has survived \r\nnot only five centuries, but also the leap
into electronic typesetting, \r\nremaining essentially unchanged. It was
popularised in the 1960s with \r\nthe release of Letraset sheets containing
Lorem Ipsum passages, and more\r\n recently with desktop publishing
software like Aldus PageMaker \r\nincluding versions of Lorem
Ipsum.</p>\r\n<h2>Why do we use it?</h2>\r\n<p>It is a long established
fact that a reader will be distracted by the\r\n readable content of a page
when looking at its layout. The point of \r\nusing Lorem Ipsum is that it
has a more-or-less normal distribution of \r\nletters, as opposed to using
'Content here, content here', making it \r\nlook like readable English.
Many desktop publishing packages and web \r\npage editors now use
Lorem Ipsum as their default model text, and a \r\nsearch for 'lorem ipsum'
will uncover many web sites still in their \r\ninfancy. Various versions
have evolved over the years, sometimes by \r\naccident, sometimes on
purpose (injected humour and the like).</p>\r\n<h2>Where does it come
from?</h2>\r\n<p>Contrary to popular belief, Lorem Ipsum is not simply
random text. It\r\n has roots in a piece of classical Latin literature from 45
BC, making \r\nit over 2000 years old. Richard McClintock, a Latin
professor at \r\nHampden-Sydney College in Virginia, looked up one of

the more obscure \r\nLatin words, consectetur, from a Lorem Ipsum passage, and going through \r\nthe cites of the word in classical literature, discovered the \r\nundoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 \r\nof \"de Finibus Bonorum et Malorum\" (The Extremes of Good and Evil) by \r\nCicero, written in 45 BC. This book is a treatise on the theory of \r\nethics, very popular during the Renaissance. The first line of Lorem \r\nIpsum, \"Lorem ipsum dolor sit amet..\", comes from a line in section \r\n1.10.32.</p>\r\n<p>The standard chunk of Lorem Ipsum used since the 1500s is\r\n reproduced below for those interested. Sections 1.10.32 and 1.10.33 \r\nfrom \"de Finibus Bonorum et Malorum\" by Cicero are also reproduced in \r\ntheir exact original form, accompanied by English versions from the 1914\r\n translation by H. Rackham.</p>\r\n<h2>Where can I get some?</h2>\r\n<p>There are many variations of passages of Lorem Ipsum available, but \r\nthe majority have suffered alteration in some form, by injected humour, \r\nor randomised words which don't look even slightly believable. If you \r\nare going to use a passage of Lorem Ipsum, you need to be sure there \r\nisn't anything embarrassing hidden in the middle of text. All the Lorem \r\nIpsum generators on the Internet tend to repeat predefined chunks as \r\nnecessary, making this the first true generator on the Internet. It uses\r\n a dictionary of over 200 Latin words, combined with a handful of model \r\nsentence structures, to generate Lorem Ipsum which looks reasonable. The\r\n generated Lorem Ipsum is therefore always free from repetition, \r\ninjected humour, or non-characteristic words etc.</p>",

"pb_description": "<p>Learn Best Practices for Stopping Data
Breaches, Fraud and Identity Theft</p>\r\n<p>Even the best
cybersecurity software con't stop you from choosing a weak password,
clicking a bad link or installing a social networking app that snoops into
your address book, calendar or geodata.</p>\r\n<p>And that's not all.
With cybercrime and corporate espionage on the rise, we've entered the
age where even private digital correspondence should be created to
withstand public scrutiny. This course teaches you how.</p>\r\n<p>The
risks are everywhere. 11.5 million people are victims of identity fraud each
year and that number is rising. And it takes 330 hours, on average, to

repair the damage.</p>\r\n<p>Protect yourself, your family and your work. Get this introductory course right now and learn how to safeguard your data and reputation.</p>\r\n<h2>Who this course is for:</h2>\r\n
Anyone who wants to minimize cybercrime risks when they use online communication services like email and social networks.
this course is appropriate for anyone with access to a secure network who also use social networks, such as loved ones, children ages 9 and up and coworkers.
\r\n<p>Learn Best Practices for Stopping Data Breaches, Fraud and Identity Theft</p>\r\n<p>Even the best cybersecurity software con't stop you from choosing a weak password, clicking a bad link or installing a social networking app that snoops into your address book, calendar or geodata.</p>\r\n<p>And that's not all. With cybercrime and corporate espionage on the rise, we've entered the age where even private digital correspondence should be created to withstand public scrutiny. This course teaches you how.</p>\r\n<p>The risks are everywhere. 11.5 million people are victims of identity fraud each year and that number is rising. And it takes 330 hours, on average, to repair the damage.</p>\r\n<p>Protect yourself, your family and your work. Get this introductory course right now and learn how to safeguard your data and reputation.</p>\r\n<h2>Who this course is for:</h2>\r\n

1.3. API Types

REST (Representational State Transfer) APIs are a common type of API used in web services that adhere to a set of architectural principles. REST APIs in the context of E-SCHOOL solution, that would typically be used to manage various resources such as users, courses, content, and more, through standard HTTP methods.

Here's an overview of what the REST APIs in E-SCHOOL solution might look like:

1.3.1. Authentication APIs

a. Login API
  - Endpoint: `POST /api/auth/login`
  - Description: Authenticates a user and returns a token.
  - Request Body: `{ "username": "user", "password": "pass" }`
  - Response: `{ "token": "abc123" }`

b. Token Validation API
  - Endpoint: `GET /api/auth/validate`
  - Description: Validates a token.
  - Headers: `Authorization: Bearer abc123`
  - Response: `{ "valid": true }`

1.3.2. User Management APIs

a. User Registration API
  - Endpoint: `POST /api/users`
  - Description: Registers a new user.
  - Request Body: `{ "username": "user", "email": "user@example.com", "password": "pass" }`
  - Response: `{ "userId": "123" }`

b. User Profile API
  - Endpoint: `GET /api/users/{userId}`
  - Description: Retrieves user profile information.
  - Response: `{ "userId": "123", "username": "user", "email": "user@example.com" }`

  - Endpoint: `PUT /api/users/{userId}`
  - Description: Updates user profile information.
  - Request Body: `{ "email": "newemail@example.com" }`
  - Response: `{ "success": true }`

1.3.3. Course Management APIs

a. Course Creation API
  - Endpoint: `POST /api/courses`
  - Description: Creates a new course.
  - Request Body: `{ "title": "Course Title", "description": "Course Description" }`
  - Response: `{ "courseId": "456" }`

b. Course Update API
  - Endpoint: `PUT /api/courses/{courseId}`
  - Description: Updates an existing course.
  - Request Body: `{ "title": "Updated Title" }`
  - Response: `{ "success": true }`

c. Course Deletion API

  - Endpoint: `DELETE /api/courses/{courseId}`

  - Description: Deletes a course.

  - Response: `{ "success": true }`

d. Course Enrollment API

  - Endpoint: `POST /api/courses/{courseId}/enroll`

  - Description: Enrolls a user in a course.

  - Request Body: `{ "userId": "123" }`

  - Response: `{ "success": true }`

1.3.4. Content Management APIs

a. Content Upload API

  - Endpoint: `POST /api/courses/{courseId}/content`

  - Description: Uploads course content.

  - Request Body: `{ "content": "base64encodedcontent", "type": "video/pdf" }`

  - Response: `{ "contentId": "789" }`

b. Content Retrieval API

  - Endpoint: `GET /api/courses/{courseId}/content/{contentId}`

  - Description: Retrieves course content.

  - Response: `{ "contentId": "789", "type": "video/pdf", "content": "base64encodedcontent" }`

1.3.5. Assessment APIs

a. Quiz Creation API

  - Endpoint: `POST /api/courses/{courseId}/quizzes`

  - Description: Creates a quiz.

  - Request Body: `{ "title": "Quiz Title", "questions": [ { "question": "Question?", "options": ["a", "b", "c"], "answer": "a" } ] }`

  - Response: `{ "quizId": "101" }`

b. Quiz Submission API

- Endpoint: `POST /api/courses/{courseId}/quizzes/{quizId}/submit`

- Description: Submits quiz responses.

- Request Body: `{ "userId": "123", "responses": [ { "questionId": "1", "response": "a" } ] }`

- Response: `{ "result": "pass/fail" }`

c. Quiz Results API

- Endpoint: `GET /api/courses/{courseId}/quizzes/{quizId}/results`

- Description: Retrieves quiz results.

- Response: `{ "userId": "123", "score": "85" }`

1.3.6. Progress Tracking APIs

a. Progress Update API

- Endpoint: `PUT /api/courses/{courseId}/progress`

- Description: Updates user's progress in a course.

- Request Body: `{ "userId": "123", "progress": "50" }`

- Response: `{ "success": true }`

b. Progress Retrieval API

- Endpoint: `GET /api/courses/{courseId}/progress/{userId}`

- Description: Retrieves user's progress in a course.

- Response: `{ "userId": "123", "progress": "50" }`

1.3.7. Reporting and Analytics APIs

a. Usage Statistics API

- Endpoint: `GET /api/reports/usage`

- Description: Retrieves usage statistics.

- Response: `{ "activeUsers": 100, "completedCourses": 50 }`

b. Custom Reports API

- Endpoint: `POST /api/reports/custom`

- Description: Creates a custom report.

- Request Body: `{ "criteria": { "dateRange": "lastMonth" } }`

- Response: `{ "reportId": "202" }`

1.3.8. Notification APIs

a. Email Notification API

  - Endpoint: `POST /api/notifications/email`

  - Description: Sends email notifications.

  - Request Body: `{ "userId": "123", "subject": "Subject", "message": "Message" }`

  - Response: `{ "success": true }`

b. SMS Notification API

  - Endpoint: `POST /api/notifications/sms`

  - Description: Sends SMS notifications.

  - Request Body: `{ "userId": "123", "message": "Message" }`

  - Response: `{ "success": true }`

1.3.9. Integration APIs

a. Payment Gateway API

  - Endpoint: `POST /api/integrations/payment`

  - Description: Processes payments.

  - Request Body: `{ "userId": "123", "courseId": "456", "amount": 100 }`

  - Response: `{ "paymentStatus": "success" }`

b. Third-Party Tools API

  - Endpoint: `POST /api/integrations/tools`

  - Description: Integrates with third-party tools.

  - Request Body: `{ "toolName": "Tool", "config": { "apiKey": "key" } }`

  - Response: `{ "integrationStatus": "success" }`

1.3.10. Support and Feedback APIs

a. Support Ticket API

- Endpoint: `POST /api/support/tickets`

- Description: Creates a support ticket.

- Request Body: `{ "userId": "123", "issue": "Issue description" }`

- Response: `{ "ticketId": "303" }`

b. Feedback Submission API

- Endpoint: `POST /api/feedback`

- Description: Submits user feedback.

- Request Body: `{ "userId": "123", "feedback": "Feedback message" }`

- Response: `{ "success": true }`

These REST APIs allow for comprehensive interaction with the E-SCHOOL solution, enabling automation, integration, and enhanced functionality. Each API follows standard REST principles, utilizing HTTP methods like GET, POST, PUT, and DELETE to perform various operations on resources.

1.4. API Endpoints and Functionalities

1.4.1. LMS

Endpoint: Domainname.lms.uat.ethiocheno.com/api/v3/

Functionality: Responsible for all functionalities in LMS process

1.4.2. Calendar

Endpoint: domainname.api.uat.ethiocheno.com/

Functionality: Responsible for all functionalities in Calendar and its related process

1.4.3. SMS

Endpoint: http://196.189.45.25:5069/sendsms

Functionality: Responsible to send SMS

1.4.4. Mail Endpoint

Endpoint: https://bole-school.api.uat.ethiocheno.com/mail/send

Functionality: Responsible to send mail.

1.5. Authentication Mechanism

Includes multi-factor authentication (MFA), Single Sign-On (SSO), and social login options to enhance user account security. To ensure secure user authentication and prevent unauthorized access.

- *Single Sign-On (SSO):* Supports SSO via OAuth and SAML protocols, allowing users to log in using credentials from trusted identity providers such as Google, Microsoft, or organizational directories. This streamlines the login process and enhances security by leveraging established identity verification mechanisms.

- *Social Login:* Users can authenticate using their social media accounts, such as Google or Facebook. This provides a convenient and secure login option.

- *OTP (One-Time Password) Login:* An additional layer of security where users can log in using a one-time password sent to their mobile phones via SMS. This helps to verify the user's identity and adds protection against unauthorized access.

- *Multi-Factor Authentication (MFA): E-SCHOOL* supports MFA to enhance security by requiring multiple forms of verification before granting access.

- *OAuth and SSO Integration:* The platform integrates with OAuth and Single Sign-On (SSO) providers, allowing users to log in using their existing credentials from other secure systems, which simplifies the authentication process and reduces password fatigue.

- *Role-Based Access Control (RBAC):* Access to data and functionality within the LMS is restricted based on the user's role, ensuring that users can only access the information and features they are authorized to use.

- *Password Policies:* Strong password policies are enforced, including requirements for complexity, expiration, and history to prevent reuse of old passwords.

- *Session Timeouts:* Sessions automatically expire after a period of inactivity to reduce the risk of unauthorized access from unattended devices.

- *Token-Based Sessions:* E-SCHOOL solution uses token-based authentication for managing sessions, which helps in securely maintaining user states and verifying requests.

- *Secure Cookie Settings:* Cookies used for session management are marked with secure attributes (e.g., HttpOnly and Secure flags) to prevent interception and cross-site scripting attacks.

1.6.   Third-Party Integrations

The following integrations are designed to streamline operations, improve user engagement, and provide a seamless learning experience. Here's a detailed overview of the third-party integrations available in the proposed solution

1.6.1.   Video Conferencing Integrations

a. Zoom

  - Purpose: To conduct live sessions and webinars.

  - Functionality: Instructors can schedule and start Zoom meetings directly from the LMS interface, allowing for real-time interaction with learners.

  - Benefits: Enhances the interactive learning experience by enabling live video sessions, Q&A, and breakout rooms.

b. Microsoft Teams

  - Purpose: For scheduling and conducting virtual meetings and classes.

  - Functionality: Seamlessly integrates with the LMS to manage and conduct live classes.

  - Benefits: Facilitates collaboration and communication within the learning environment.

c. GoToMeeting

  - Purpose: To support virtual live sessions.

  - Functionality: Enables users to join meetings via mobile or web applications.

  - Benefits: Provides flexibility and accessibility for remote learning.

d. Digital Samba

  - Purpose: For virtual classroom solutions.

  - Functionality: Offers a fully branded virtual classroom experience.

- Benefits: Enhances the LMS with features like custom branding and tailored virtual learning environments.

1.6.2. Payment Gateway Integration

Purpose: To process online payments securely.

Functionality:

- Facilitates the collection of course fees and other payments directly through the LMS.

- Integrates with the LMS to allow for quick payment processing.

- Processes payments efficiently for courses and other LMS services.

- Integrate to offer secure payment methods.

Benefits:

- Ensures secure and efficient transaction processing.

- Enhances user trust and convenience.

- Expands payment options for users, catering to regional preferences.

1.6.3. Content Management Integrations

a. YouTube
  - Purpose: For video content sharing.
  - Functionality: Integrates video content from YouTube into the LMS.
  - Benefits: Provides easy access to a vast library of educational videos.

b. Vimeo
  - Purpose: For managing video content.
  - Functionality: Allows embedding Vimeo videos within courses.
  - Benefits: Supports high-quality video streaming and management.

1.6.4. Analytics and Tracking Integrations

a. Google Analytics

- Purpose: To track user behaviour and engagement.

- Functionality: Integrates to provide detailed analytics and insights.

- Benefits: Helps administrators understand user interactions and improve course content.

b. Facebook Pixel

- Purpose: For tracking conversions and optimizing ad campaigns.

- Functionality: Integrates to track and measure the effectiveness of Facebook advertising.

- Benefits: Enhances marketing efforts by providing valuable data on ad performance.

c. Google Tag Manager:

- Purpose: For managing tags and keywords.

- Functionality: Simplifies the process of adding and managing tags for tracking and analytics.

- Benefits: Streamlines analytics tracking and improves data accuracy.

1.7. Compliance and Regulatory Requirements

When conducting third-party integration testing, ensuring compliance with various regulatory requirements is crucial to maintain legal and operational standards. Here are some general compliance and regulatory requirements to consider:

1.7.1. Data Protection and Privacy

a. *GDPR (General Data Protection Regulation):* Applicable if the data involves EU citizens. Requires clear consent, data minimization, and robust data protection measures.

b. *PDPA (Personal Data Protection Act):* In some countries, like Singapore, the PDPA governs the collection, use, and disclosure of personal data.

1.7.2. Financial Regulations

a. *PCI DSS (Payment Card Industry Data Security Standard):* If the integration involves processing credit card information, compliance with PCI DSS is necessary.

b. *SOX (Sarbanes-Oxley Act)*: For public companies, ensuring the integrity of financial reporting and related IT systems is critical.

1.7.3. Industry-Specific Regulations

a. *FERPA (Family Educational Rights and Privacy Act):* For educational institutions, FERPA governs the privacy of student education records.

1.7.4. Cybersecurity Standards

a.   *ISO/IEC 27001:2013* A standard for managing information security, ensuring data protection through a systematic approach.

b.   *ISO 9001:2015* is a globally recognized standard that specifies requirements for a quality management system (QMS), ensuring an LMS vendor consistently provides products and services that meet customer and regulatory requirements.

1.7.5. Legal and Contractual Obligations

a.   *Third-Party Contracts:* Ensure compliance with all terms and conditions specified in contracts with third-party vendors.

b.   *Data Processing Agreements (DPAs):* Required to establish the roles and responsibilities of each party regarding data protection.

1.7.6. Consumer Protection Laws

a.   *FTC (Federal Trade Commission) Guidelines:* Ensure compliance with consumer protection laws to avoid deceptive practices.

b.   *Product Liability Laws:* For software products, ensuring that they are safe for use and meet all relevant standards.

1.7.7. Cross-Border Data Transfer Regulations

a.   *Binding Corporate Rules (BCRs) and Standard Contractual Clauses (SCCs):* Mechanisms to ensure data protection during international transfers.

1.7.8. Environmental and Social Governance (ESG)

a.   *Sustainability Reporting:* Ensuring that third-party integrations comply with environmental and sustainability standards.

b.   *Corporate Social Responsibility (CSR):* Ensuring that integrations align with social responsibility commitments.

1.7.9. Intellectual Property (IP) Rights

a.   *Licensing Agreements:* Ensure that all software and data used in integrations are properly licensed.

b.   *IP Compliance:* Avoid infringement of third-party intellectual property rights.

1.7.10.   Compliance Audits and Reporting

a.   *Regular Audits:* Conduct periodic audits to ensure ongoing compliance with regulatory requirements.

b.   *Reporting Obligations:* Ensure timely and accurate reporting to regulatory bodies as required.

1.7.11. Ethical Considerations

a.   *AI and Ethics:* If integrating AI components, ensure they adhere to ethical guidelines and do not introduce bias or unfair practices.

1.7.12. Best Practices

a.   *Documentation:* Maintain detailed documentation of all compliance-related activities.

b.   *Training:* Regularly train employees on compliance requirements and best practices.

c.   *Risk Management:* Implement robust risk management practices to identify and mitigate potential compliance risks.

Adhering to these requirements helps ensure that third-party integration testing is conducted within the legal and regulatory framework, protecting both the organization and its stakeholders.

1.8.   Authorization and Access Control

Here is a general overview of how you might approach Authorization and Access Control for third-party integration testing:

1.8.1.   Define Scope and Requirements

    a.   Identify the third-party systems that will be integrated.

    b.   Define the specific data and functionalities that will be accessible by third-party systems.

    c.   Ensure compliance with relevant regulations and standards (e.g., GDPR, HIPAA).

1.8.2.   Authentication Mechanism

    a.   Implement secure authentication mechanisms (OAuth 2.0, JWT, API Keys).

    b.   Ensure secure storage and transmission of authentication credentials.

1.8.3. Role-Based Access Control (RBAC)

    a. Define user roles and permissions.

    b. Assign roles to third-party users based on their specific needs.

    c. Ensure that users only have access to the data and functionalities they need.

1.8.4. Access Control Policies

    a. Define clear access control policies.

    b. Implement least privilege principle.

    c. Use access control lists (ACLs) to manage permissions.

1.8.5. API Gateway

    a. Use an API Gateway to manage and secure API traffic.

    b. Implement rate limiting, request validation, and logging.

    c. Enforce authentication and authorization at the API Gateway level.

1.8.6. Audit and Monitoring

    a. Implement logging and monitoring for all access and actions performed by third-party systems.

    b. Regularly review logs for suspicious activities.

    c. Conduct periodic audits of access controls and permissions.

1.8.7. Testing and Validation

    a. Perform thorough testing of authentication and authorization mechanisms.

    b. Include negative testing to ensure unauthorized access is denied.

    c. Validate that access controls work as expected and do not introduce vulnerabilities.

1.8.8. Data Encryption

    a. Ensure data in transit is encrypted using protocols like TLS.

    b. Encrypt sensitive data at rest.

    c. Use strong encryption algorithms and key management practices.

1.8.9. Incident Response Plan

    a. Develop and document an incident response plan.

    b. Ensure quick response to potential security breaches.

c. Regularly update and test the incident response plan.

1.8.10. User Education and Training

a. Provide training to third-party users on security best practices.

b. Ensure they understand the importance of protecting access credentials.

1.8.11. Example Scenario for Integration Testing

Scenario: Integration with a Payment Gateway

a. Authentication Mechanism

Use OAuth 2.0 for secure authentication.

Payment gateway provides a client ID and secret to authenticate API requests.

b. Role-Based Access Control

Define roles such as "Admin", "User", and "Auditor".

"Admin" can perform all actions.

"User" can initiate transactions but not change configurations.

"Auditor" can view transaction logs but cannot initiate transactions.

c. Access Control Policies

Ensure only authorized users can access transaction APIs.

Admin roles can access configuration APIs.

d. API Gateway

Configure API Gateway to manage traffic to the payment gateway.

Enforce rate limiting to prevent abuse.

Implement logging and monitoring for all API requests.

e. Testing and Validation

Test valid and invalid login attempts.

f. Test role-based access to ensure users can only perform allowed actions.

Validate the security of data in transit and at rest.

Implementing these steps will help ensure that third-party integrations are secure and that access control is properly managed during testing and in production.

1.9.   Test Account if there

2.   Your contact Information and communication channel
